

SB-100 PRO 2.0 Universal Time Clock™

A Proven Solution Tailored to Small Business Needs

Plug & Play Simplicity

No software to install!

All Software is embedded right in the clock! Simply connect the time clock to a computer of your choice or directly to your network, with no complicated installation involved or expensive licenses to buy.

Track Paid Breaks

Monitor how long employees take for Break with the new Track Paid Breaks feature. Track Paid Breaks allows you to better manage payroll costs and run your business with greater efficiency.

NEW

Web Punch Time Clock™

Employees clock IN/OUT from their Web browser through the Internet or Intranet. Ideal for remote offices, traveling employees or working from home.

- Employees clock IN from any Web-enabled device such as cell phone or PDA.
- Compatible with all Web browsers
- Supports up to 25 Web Punch employee per system

Unbeatable in technology, user friendliness, and price; the SB-100 PRO 2.0™ time clock is truly the best automated time clock solution for a business with 25 employees or less.

The SB-100 PRO 2.0™ allows employees to easily clock IN and OUT using keypad or optional badges. Meanwhile managers can easily, at anytime, access the time clock to monitor attendance, generate payroll reports & timecards at the click of a mouse.

The SB-100 PRO 2.0™ is quick to set up and simple to use. Viewing and editing reports is intuitive and easy to learn, making this the ideal system for companies that have never before used an automated time clock.

Additional upgrades and accessories are available for companies that require more advanced functionality and reporting including; custom employee PIN, benefit tracking, email alerts, and more!

- **Multiple Employee Entry Options:** employees clock IN with 3 digit pre-assigned ID number.
- **Easily Expandable User Capacity:** supports up to 25 employees. Expandable to 50 ,100, or 250 employees per system.
- **Universal Connectivity Options:** Ethernet, USB or serial connection included. Even allows access to your time clock data over the Web!

SB-100 PRO 2.0™ Benefits

User Friendly: automates time collection without extensive setup or training

Cuts Costs: automatically calculates standard, overtime and consecutive day (California) overtime hours

Unique: allows time clock access & management over the web—perfect for home office or remote sites

Proactive: alerts managers before overtime, of missed punches & more

Compatible: works with all operating systems including Windows®, Mac® & Linux®

Flexible: supports all pay period types

Value: one-of-kind QuickBooks® Plug-in and ADP® Export included

Sample Report: Employee Timecard

SB-100 PRO 2.0 includes three easy-to-use reports to give you complete visibility of your employees' time and attendance data: Employee Timecard Report, Attendance Report, and Roster Report.

One-of-a-kind

QuickBooks Plug-in

Use our one-of-a-kind QuickBooks® Plug-in to integrate your time clock with QuickBooks Payroll®. All in one simple step: access your time clock from the QuickBooks® file menu, sync employees in QuickBooks® with time clock employees, and import employee hours.

Further Integration

ADP® export program allows you to streamline your payroll process even more. Export employee punch hours and benefit hours directly into ADP desktop software.

Use the CSV export to import punch hours into payroll programs that accept CSV files.

Obtain free API to create custom Exports for advanced integration.
